The SECURE Act of 2020 modified the Internal Revenue Code definition of a retirement account beneficiary as well as the distribution rules a beneficiary must follow when distributing assets from an inherited retirement account. This in turn impacts when an inherited retirement account is considered abandoned under a state's unclaimed property law. As a result, we need to confirm your beneficiary type in the relation to the original owner from whom you inherited the retirement account. To prevent your inherited retirement account from being considered abandoned, we recommend you maintain regular contact with Morgan Stanley by either periodically logging into your account or contacting customer service.

Installment Distributions/Required Minimum Distribution

IRA Owners Over Required Minimum Distribution Age. Important transfer restriction for owners that were over the Required Minimum Distribution age.* (Not applicable for Roth IRAs.) In the year of the owner's death, any unpaid Required Minimum Distribution (RMD) amounts for that year cannot be transferred to your IRA.** These amounts must be paid to you. Check and complete if applicable.

☐ Distribute the amount of the remaining RMD in a single payment.

☐ Morgan Stanley Funds will be calculating the RMD amount.

☐ Please distribute $_____ to satisfy the remaining RMD.

* Required Minimum Distribution age is 70½ if the account owner's date of birth was on or before June 30, 1949. Required Minimum Distribution age is 72 if the account owner's date of birth was after June 30, 1949.

** Under the CARES Act, RMDs are waived for calendar year 2020.

Select the appropriate installment instructions for the reported beneficiary type.

Tax Withholding Elections

FEDERAL TAX WITHHOLDING: Federal income tax will be withheld at the rate of 10% from any distribution, subject to the IRS withholding rules, unless you elect a withholding rate of 0% below or have previously elected out of withholding. Tax will be withheld on the gross amount of the payment even though you may be receiving amounts that are not subject to withholding because they are excluded from gross income. This withholding procedure may result in excess withholding on the payments. If you elect to have no federal taxes withheld from your distribution, or if you do not have enough federal income tax withheld from your distribution, you may be responsible for payment of estimated tax. You may incur penalties under the estimated tax rules if your withholding and estimated tax payments are not sufficient.

☐ I elect federal income tax withholding of 0%, do not withhold federal income tax from my distributions.*

☐ I elect federal income tax withholding of _____% must be a whole percent, you may elect any rate from 1% to 100%.*

See the attached Form W-4R Withholding Certificate for Nonperiodic Payments which has the **Marginal Rate Tables** and **"Suggestion for determining withholding"** instructions. You may use these tables and instructions to help you select the appropriate withholding rate.

*Generally, you can't elect less than 10% federal income tax withholding for payments to be delivered outside the United States and its possessions.

STATE TAX WITHHOLDING: Your state of residence will determine your state income tax withholding requirements, if any. Those states with mandatory withholding may require state income tax to be withheld from payments if federal income taxes are withheld or may mandate a fixed amount regardless of your federal tax election. Voluntary states let individuals determine whether they want state taxes withheld. Some states have no income tax on retirement payments. Please consult with a tax advisor or your state's tax authority for additional information on your state requirements.

☐ I elect **NOT TO** have state income tax withheld from my retirement account distributions (only for residents of states that do not require mandatory state tax withholding).

☐ I elect **TO** have the following dollar amount or percentage withheld from my retirement account distribution for state income taxes (for residents of states that allow voluntary state tax withholding). $_____ or _____%

Signature (Required)

I expressly assume responsibility for any adverse consequences, which may arise from the election(s) and agree that the Custodian, Morgan Stanley, and their agents shall in no way be responsible, and shall be indemnified and held harmless, for any tax, legal or other consequences of the election(s) made on this form.

Participant's Signature Date

Notary or Medallion Signature Guarantee here

A Signature Guarantee or bar-coded Medallion Guarantee stamp may be required and may be obtained from eligible guarantors, including: Commercial Banks, Trust Companies, member firms of a domestic stock exchange, Savings Associations and Credit Unions. A notary public is NOT an acceptable guarantor. A Medallion Guarantee Stamp is required if your redemption is:

- Sent to an alternate payee, or address other than the address on your account.
- Sent via wire or ACH to banking instructions when no voided check is available or the voided check is a 3rd party check
- If this request is being signed by the account owner's Power of Attorney
- Or the redemption is over $50,000.

Future developments. For the latest information about any future developments related to Form W-4R, such as legislation enacted after it was published, go to *www.irs.gov/FormW4R*.

Purpose of form. Complete Form W-4R to have payers withhold the correct amount of federal income tax from your nonperiodic payment from an employer retirement plan, annuity (including a commercial annuity), or individual retirement arrangement (IRA). See below for the rules and options that are available for each type of payment.

Caution: If you have too little tax withheld, you will generally owe tax when you file your tax return and may owe a penalty unless you make timely payments of estimated tax. If too much tax is withheld, you will generally be due a refund when you file your tax return. Your withholding choice (or an election not to have withholding on a nonperiodic payment) will generally apply to any future payment from the same plan or IRA. Submit a new Form W-4R if you want to change your election.

Nonperiodic payments—10% withholding. Your payer must withhold at a default 10% rate from the taxable amount of nonperiodic payments **unless** you enter a different rate on line 2. Distributions from an IRA that are payable on demand are treated as nonperiodic payments. Note that the default rate of withholding may not be appropriate for your tax situation. You may choose to have no federal income tax withheld by entering "-0-" on line 2. See the specific instructions below for more information. Generally, you are not permitted to elect to have federal income tax withheld at a rate of less than 10% (including "-0-") on any payments to be delivered outside the United States and its territories .

Note: If you don't give Form W-4R to your payer, you don't provide an SSN, or the IRS notifies the payer that you gave an incorrect SSN, then the payer must withhold 10% of the payment for federal income tax and can't honor requests to have a lower (or no) amount withheld. Generally, for payments that began before 2026, your current withholding election (or your default rate) remains in effect unless you submit a Form W-4R.

Payments to nonresident aliens and foreign estates. Do not use Form W-4R. See Pub. 515, Withholding of Tax on Nonresident Aliens and Foreign Entities, and Pub. 519, U.S. Tax Guide for Aliens, for more information.

Tax relief for victims of terrorist attacks. If your disability payments for injuries incurred as a direct result of a terrorist attack are not taxable, enter "-0-" on line 2. See Pub. 3920, Tax Relief for Victims of Terrorist Attacks, for more details.

Specific Instructions

Line 2 - More withholding. If you want more than the default rate withheld from your payment, you may enter a higher rate on line 2.

Less withholding (nonperiodic payments only). If permitted, you may enter a lower rate on line 2 (including "-0-") if you want less than the 10% default rate withheld from your payment. If you have already paid, or plan to pay, your tax on this payment through other withholding or estimated tax payments, you may want to enter "-0-".

Suggestion for determining withholding. Consider using the Marginal Rate Tables above to help you select the appropriate withholding rate for this payment or distribution. The tables are most accurate if the appropriate amount of tax on all other sources of income, deductions, and credits has been paid through other withholding or estimated tax payments. If the appropriate amount of tax on those sources of income has not been paid through other withholding or estimated tax payments, you can pay that tax through withholding on this payment by entering a rate that is greater than the rate in the Marginal Rate Tables.

The marginal tax rate is the rate of tax on each additional dollar of income you receive above a particular amount of income. You can use the table for your filing status as a guide to find a rate of withholding for amounts above the total income level in the table.

To determine the appropriate rate of withholding from the table, do the following. Step 1: Find the rate that corresponds with your total income not including the payment. Step 2: Add your total income and the taxable amount of the payment and find the corresponding rate.

If these two rates are the same, enter that rate on line 2. (See Example 1 below.)

If the two rates differ, multiply (a) the amount in the lower rate bracket by the rate for that bracket, and (b) the amount in the higher rate bracket by the rate for that bracket. Add these two numbers; this is the expected tax for this payment. To get the rate to have withheld, divide this amount by the taxable amount of the payment. Round up to the next whole number and enter that rate on line 2. (See Example 2 below.)

If you prefer a simpler approach (but one that may lead to overwithholding), find the rate that corresponds to your total income including the payment and enter that rate on line 2.

Examples. Assume the following facts for *Examples 1* and *2*. Your filing status is single. You expect the taxable amount of your payment to be $20,000. Appropriate amounts have been withheld for all other sources of income and any deductions or credits.

Example 1. You expect your total income to be $70,000 without the payment. Step 1: Because your total income without the payment, $70,000, is greater than $66,500 but less than $121,800, the corresponding rate is 22%. Step 2: Because your total income with the payment, $90,000, is greater than $66,500 but less than $121,800, the corresponding rate is 22%. Because these two rates are the same, enter "22" on line 2.

Example 2. You expect your total income to be $60,000 without the payment. Step 1: Because your total income without the payment, $60,000, is greater than $28,500 but less than $66,500, the corresponding rate is 12%. Step 2: Because your total income with the payment, $80,000, is greater than $66,500 but less than $121,800, the corresponding rate is 22%. The two rates differ. $6,500 of the $20,000 payment is in the lower bracket ($66,500 less your total income of $60,000 without the payment), and $13,500 is in the higher bracket ($20,000 less the $6,500 that is in the lower bracket). Multiply $6,500 by 12% to get $780. Multiply $13,500 by 22% to get $2,970. The sum of these two amounts is $3,750. This is the estimated tax on your payment. This amount corresponds to 19% of the $20,000 payment ($3,750 divided by $20,000). Enter "19" on line 2.
